RIZKY RAHMAN SALAM
Frontend Engineer

Pekanbaru, Riau, Indonesia · +6282282447786 · clashikik@gmail.com · Linkedin

Dynamic Frontend Engineer with 2+ years of experience specializing in building high-performance, scalable web applications. Expert in React.js ecosystem and TypeScript, with a deep understanding of modern state management, Clean Architecture, and responsive UI/UX design. Proven track record in developing complex internal dashboards and core products using Material UI and Tailwind CSS. While focused on frontend excellence, possesses strong full-stack capabilities with Node.js and Golang to ensure seamless API integration and system reliability.

AREAS OF EXPERIENCE

- **Frontend Core:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
- **UI & Styling:** Material UI (MUI), Tailwind CSS, Bootstrap, Responsive Design
- **State & Data:** Redux, Zustand, React Query, Context API, RESTful APIs, WebSockets
- **Testing & Tools:** Jest, React Testing Library, Git, GitHub, Vite, Webpack
- **Data Engineering & APIs:** RESTful APIs, WebSocket
- **Backend (Supporting):** Node.js, Golang, PostgreSQL, MongoDB, Prisma ORM
- **Cloud & DevOps:** Docker, AWS (S3, Lambda), Azure, CI/CD Basics

PROFESSIONAL EXPERIENCE

ASSIST.ID – Pekanbaru, Indonesia
Frontend Engineer (July 2024 - Present)

- Spearheaded the development of Assist.id's core products and complex internal dashboards, utilizing React.js and Material UI to deliver a highly responsive and intuitive user experience.
- Engineered a reusable component library and implemented Clean Architecture on the frontend, reducing development time for new features by 30% and improving code maintainability.
- Optimized frontend performance and state management logic, ensuring seamless synchronization with Node.js backend services through robust API integration.
- Applied advanced TypeScript patterns to ensure type safety across the application, significantly reducing runtime errors and improving developer productivity.

GARUDA CYBER INDONESIA – Pekanbaru, Indonesia
Frontend Web Developer (August 2023 - December 2023)

- Developed and deployed SEO-friendly web applications using Next.js and React.js, focusing on fast load times and smooth user transitions.
- Translated Figma designs into pixel-perfect, responsive layouts using Tailwind CSS, ensuring consistent look-and-feel across mobile, tablet, and desktop views.
- Collaborated closely with designers and backend teams to refine API contracts and enhance product functionality, consistently meeting sprint goals in an Agile/Scrum environment.

EDUCATION

Universitas Sains dan Teknologi Indonesia (February 2020 – February 2025)
Bachelor's degree, Computer Sciences - GPA 3.70 / 4.00
